To Whom It May Concern:

### **Testimonial**

I'd like to show my appreciation to Mr. Victor Chen who is currently the Director of Alliance Consultation Pte Ltd.

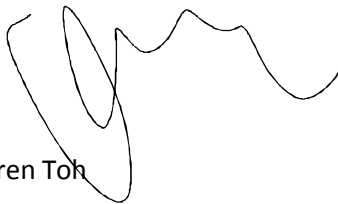

He was teaching my three sons from 1999 to 2010 for the preparation of Singapore-Cambridge GCE O Level subjects such as E Maths, A Maths, Physics and Chemistry and they have obtained excellent results.

Mr. Victor Chen is very familiar with GCE O Level syllabus and he is very experienced in the subject he teaches. He is able to understand the root problem the student has and able to develop a solution against it.

He is problem-solver instead of complainer and we also have other kids from relatives or friends under his teaching.

We are here to thank him for the great effort in teaching my sons for many years and wish him success in further Career.

Yours sincerely,

To Whom It May Concern.

I have had the pleasure of being under the tutorial guidance from Mr Victor Chen Yong for Mathematics and Science [Chemistry & Physics] while I was in secondary school. He has tutored me for a total of 3 years. During this time, he laid the foundation and liking for each of the subjects and up until now, it has stayed firm with me.

I was averaging a 'C' grade for Mathematics and Science in lower secondary school and after Victor's patient tutoring completed my GCE 'O' levels with a 'B' grade for Mathematics and an 'A' grade for Science.

I soon found myself developing a keen interest in being involved in mathematics and sciences; Therefore, I furthered my studies at Ngee Ann Polytechnic and National University of Singapore (NUS) in Mechanical Engineering. Now being an engineer in my professional career, quite a large impact to my progress in this field was due to the development and foundation laid by Victor Chen Yong in my early years.

To whom It May Concern

I received tuition service from Mr Victor Chen back in 2005/2006 for the 'O'-levels preparation, whom was referred to by my aunt.

In my opinion, Victor is a responsible person who takes pride in the tuition service he provides. I remember vividly that there was a time when I did not do the homework he assigned to me for practise, he told me bluntly in the following tuition session that should I be uninterested in the tuition he provide, I should not waste my parents' money as he would like to coach students who put in effort to complete the homework.

He assisted me to learn quickly through mental schemas and that effectively aided my learning of the subjects (Chemistry & E Maths).

To end it off, I would say that Victor would be my go-to guy should my kids require private tuition in future.

Best regards,  
Douglas Kwok
